

To God,

Hello, God! I'm Cloena.
Is this letter reaching you?
Umm, I have a note addressed to you!

I'll put it in with the letter,
so I hope you'll read it!

◆◆ Summary ◆◆

[Title] The Faceless Double

[Version] 0.01

[Creator] △○□× (Miwashiba)

[Tool] WOLF RPG Editor

[Genre] God-Searching Adventure

◆◆ Story ◆◆

In this world, there sometimes appears a meteor,
said to grant wishes. The meteor will grant any wish at all,
but as compensation for the wish, you will be cursed.
The people called this wish-granting meteor "God."

When Double awoke, he had lost his form.
He can't even remember how this might have happened.
Thus, Cloena makes a suggestion to Double:
go on a search for God to lift the curse.

This is a work of fiction.

**Any resemblance to people, places,
and events is strictly coincidental.**

◆◆ Game Description ◆◆

A puzzle-solving adventure game with some simple action elements.

There are some elements resembling horror,
but nothing too extreme.

Certain event scenes have full voice acting.
Currently, you can play through the Prologue.

I would appreciate it if you sent another email.

Also, please send questions, bug reports, and typo reports regarding translated versions of Miwashiba's games to the respective translator(s). Miwashiba will not be able to answer such questions.

◆◆ Update Log ◆◆

8/17/18 Prologue released.

9/5/18 Added an event, included option to turn off event VA

...Cloe doesn't really get it,
but does it make sense to you, God?
Well, we'll be going to find you, so!

Until then, umm, uhh...
Eat snacks and drink tea and take it easy!
I'll definitely lift big bro's curse!
See ya!

Cloena
